

The Mission of EDEquity, Inc.

The mission of EDEquity, Inc. is to assist educators in improving their “will and skill” to eliminate the achievement gap! EDEquity is a professional development company that targets its assistance to high performing and low performing districts and schools in implementing the key principles of Equity: Awareness, Attitude, Analysis, Action and Accountability. We are committed to providing successful and positive educational experiences for ALL students.

The EDEquity associates have had educational success in working with schools across the state of California. Through engendering mutual respect, relationships, and results with educators, EDEquity has had the opportunity to work with staffs around the critical issues of Equity and Excellence.

We believe eliminating the achievement gap will take committed educators that are willing to have ruthless compassion to reflect and act on promising practice for the lowest performing student groups. The most promising results-driven approach that has yielded increased student achievement is when the “instruction is expert enough” to reach every student in the classroom.

We help educators improve their craft to be expert practitioners!
